

# HEAVENLY PAWS PET AQUAMATION

The Gentle & Eco-Friendly Alternative To Cremation

Aquamation is a water-based, natural cremation process similar to an organic burial. Aquamation is gentler for your pet, returns more of your pet's ashes, and is the only sustainable aftercare for the environment. Aquamation consumes 95% less energy than conventional cremation and emits no pollution.

Heavenly Paws Pet Aquamation is the first provider of this gentle & eco-friendly afterlife pet care in Georgia. Our clients believe choosing Aquamation is the best way to honor the life of their beloved companion. Heavenly Paws is proud to ensure peace-of-mind and sustainability for your pet's afterlife care and our community.

## Gentle Farewell Package

The Gentle Farewell Package features a biodegradable urn, an ink paw print on canvas with display stand, and a carefully collected clipping of fur. Our PAWS Tracker ID System and Certificate of Aquamation ensure the highest standards of accountability while your pet is in Heavenly Paws' care.
